

## Peering Policy

Bouygues Telecom Business-Distribution (BTBD) is providing fixed and mobile telephony and internet access services in France to customers, companies and MVNOs under a number of brands including: NRJ Mobile, Auchan Telecom, Cdiscount Mobile etc.

Bouygues Telecom Business-Distribution has a selective peering policy. Peers are selected based on the amount of traffic exchanged with BTBD, capability and mutual benefit for both networks. Meeting the peering guidelines presented in this policy is not a guarantee that a peering relationship with BTBD will be established. BTBD shall evaluate a number of business factors and reserves the right not to enter into a peering agreement with an applicant.

For peering requests, please contact [peering@euroinformation-telecom.com](mailto:peering@euroinformation-telecom.com)

## General requirements for peering with BTBD

- The Peer must be registered in a public Internet Routing Registry (IRR) database.
  - Its record must be completed in PeeringDB
- The Peer must have a publicly routable ASN
- The BGP session must be established in public IPv4 or IPv6
- The Peer should have a 24x7 NOC with BGP expertise

## Traffic Requirements for private peering

Starting from 20 Gbps, BTBD invites you to contact us to build together the terms of a private network interconnection (PNI) agreement.

The PNI is free of charge up to 100Gbps of capacity. Above this value, please contact us for more details.

For symmetric or unbalance traffic (between ingress and egress) up to a ratio of 2-to-1, the peering is free regardless of the amount of traffic.

Physical interconnection must be established either in 10 Gigabits Ethernet (10GbE LR) or in 100 Gigabits Ethernet (100GbE LR).

## Related ASN

BTBD manages the primary ASN 25117

## Routing Policy

Peering sessions with AS25117 will advertise all BTBD's routes.

The Peer shall not send unsolicited traffic to ASN25117.

Periodic review of this policy will be conducted to ensure that the criteria and eligibility requirements are consistent with BTBD's business needs. BTBD may modify this peering policy at any time and without notice in its sole and absolute discretion.

BTBD reserves the right to terminate peering for convenience, upon a 1 month prior notice or with peers who do not meet the criteria described above. BTBD shall not be liable for any damages of any nature suffered by any peer or any third party resulting in whole or in part from BTBD's exercise of its rights under this Peering Policy.
